ENERGY CHAIN™

Endurance To Go The Distance

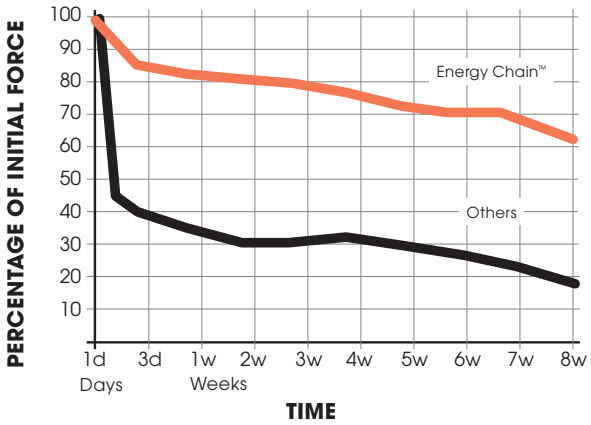

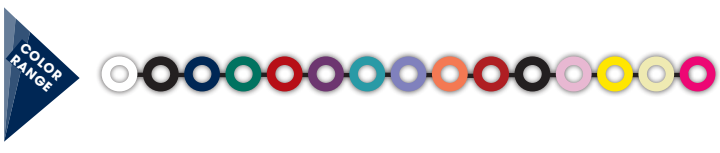

Energy Chain™ outperforms competitors start to finish. Its unique patented thermosetting resin formula provides superior elastic memory following initial stretch over competitor's plastic chain.

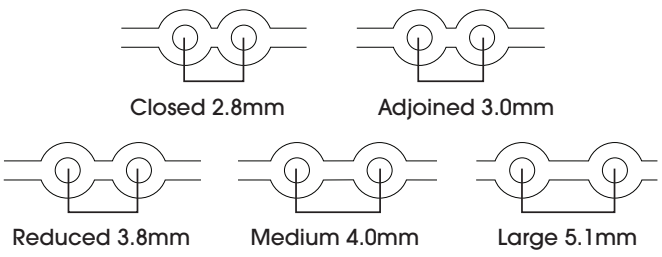

University and clinical research demonstrate that RMO®'s Energy Chain delivers sustained light continuous force over a longer period than other available elastic chains. The tough patented material is stain-resistant, tasteless, non-toxic, and latex free.

Features and Benefits:

- Package contains a spool that is 7'6" (2.3m), Clear and Gray available in 15'42"(4.7m)
- Patented formula provides superior shape memory following initial stretch
- Close and open space faster with consistent force up to eight weeks
- Reduce appointment intervals and save valuable chair time
- Less stress decay and less elongation over time compared to other available elastic chains
- Spacing variation between modules allows proper selection

Consider other products made of the same quality material as Energy Chain™:

Energy Thread™ Elastomeric Thread

RMO® Energy Thread™ is produced using the same material found in Energy Chain™. Energy Thread™ is extruded in two cross-section square sizes - .018" x.018" and .026" x .026." By producing Energy Thread™ in a square configuration, it ties snugly and eliminates knot slippage common with round thread.

- 20% more mass than round thread for enhanced force delivery
- Resists swelling, staining and discoloration
- Smooth surface and hydrophobic properties prevent plaque build-up better than round textured thread
- 25-feet per spool in clear or gray

Size	Color	Package Contains	Order Number
.025" (0.635mm), 7,5m	Clear	1 spool	J00386
.025" (0.635mm), 7,5m	Gray	1 spool	J00387

Tough-O® Light Energy Ligatures

Just like the original Tough-O®'s, these ligatures maintain a higher force level between once visits compared to standard ligatures, delivering treatment efficiency by improving slot prescription expression and decreasing arch wire slop.

- Same great material as Energy Chain™
- Formulated for easy ligation
- Decreased elasticity defor mation
- High force retention

Package Contains	Order Number
30 sticks (20ligs/stick)	J00159
